2.0 Racing Rules

2.1 Drivers must stay at a pace during all starts and restarts, until an admin starts the race. If caught jumping the start you will be moved to the rear at the next caution or at the conclusion of the race. Initial Start is on GREEN Light. Restarts are on the leader once he advances to the center of turn 3 & 4. Original start will be double file and restarts will be Delaware Double file. Please see 2.9.

2.2 Drivers must in line until you pass the start/finish line on the ALL starts; your front bumper to their rear bumper.

a) Penalties as follows:

1st offense – Penalized 1 lap at the conclusion of the race.

2nd offense – Penalized 1 lap at the conclusion of the race; and suspended for 1 week.

3rd offense – Disqualified from the race; suspended for 2 weeks.

2.3 Drivers may only have a maximum of one car length between them and the car in front of them on starts and restarts, if this becomes a problem you will be moved to the end of line.

2.4 Drivers spinning 3 times, or involved in 3 cautions, must exit immediately. If you do not exit, you will be disqualified for that event. If it happens a second time during a series, you will be suspended for 2 weeks.

2.5 When the caution is waved slow down and get in a single file line behind whomever iRacing is telling you to line up behind.

a) Once iRacing makes the call on where you are to go that call is final.

2.6 Rough driving complaints, should be replay reviewed and taken up with an admin within 15 minutes after race.

2.7 Any race admin can ask you to exit server at any time during the race, for any reason they feel deserves this action.

2.8 If you make the A-Main and leave the server without contacting a DIRT Series Admin with a legitimate reason; then you will be suspended for the following week.

2.9 All restarts will be Delaware double file. This is where the leader has the front row to himself and 2nd place will choose inside or outside lane. The field will then follow suit. (If the driver in front of you goes to the outside lane, you go to the inside lane.)

2.10 If you miss the start of the race, you are not to enter the racing surface until a yellow flag comes out.

2.11 If you enter the pits under green flag conditions, you are not to enter the racing surface until a yellow flag comes out. If you pit under caution, you are permitted to enter the track as long as the race is still in the caution state. If the green flag is waved while you are still in the pits, you will not be able to re-enter the track until the caution flag is displayed
